

Statement of Aims

At Epsom our aim is to provide exceptional all-round opportunities – academic, social, sporting and cultural – in a safe and supportive community. We are a school that aims for excellence, and values both achievement and endeavour. We challenge pupils to develop their talents and broaden their interests; to become confident in themselves and to be tolerant and appreciative of others.

- To provide a flourishing co-educational environment for boarding and day pupils.
- To deliver a modern and stimulating academic curriculum.
- To prepare pupils for entry to university, including those who aim for places on the most competitive courses.
- To preserve and strengthen the College's close traditional links to the medical profession and the high numbers of pupils who move on to medical schools.
- To provide comprehensive pastoral care and guidance under the leadership of dedicated house staff.
- To offer a wide range of extra-curricular activities to maximise the individual potential of each pupil.
- To foster moral and spiritual values, tolerance and understanding in every pupil and from within Epsom's Christian foundation.
- To develop a strong sense of responsibility and commitment to the community
- To further genuine awareness, understanding and co-operation between College pupils and staff and its wider communities, both local and international.
